Helping every child to
thrive in their digital life

QORIA SECURES STRATEGIC PARTNERSHIP FOR THE STATE OF OHIO

Qoria is pleased to advise that our US operation has been selected as a preferred technology provider for the Management Council of the Ohio Education Computer Network.

The partnership makes Qoria's world-leading end-to-end suite of online safety and student wellbeing services available across Ohio with assured pricing, service, and support.

The Management Council

As non-profit public agencies created by the Ohio legislature, Ohio's sixteen Information Technology Centers (ITCs) work collaboratively as the Ohio Education Computer Network (OECN) to serve over 1.8 million students in 1,000+ public school districts, parochial schools, career centers, and community schools, making Ohio one of the largest education systems in the US.

The Management Council coordinates and supports the collaborative efforts of the OECN, which implements a broad spectrum of academic and administrative technologies across Ohio's K-12 education system.

The Management Council and its various technical and educational divisions (such as INFOhio, Ohio K12 Help, and SSDT Educational Software Solutions) continue to ensure that students have appropriate connectivity, support, software, and digital resources to get the education they will need to succeed in the future.

For more information, you can visit their [website](#).

The Opportunity

Qoria is honoured to have its US operation, Linewize, chosen by the Management Council as a technology partner and one of only two preferred vendors in student safety and wellbeing.

Through this partnership, Ohio school districts will have access to Qoria's entire solution portfolio (Filtering, Classroom Management, Monitoring, Community and Student Wellbeing Measurement) with transparent pricing and the support they need to cater to the challenges of today's schooling.

Linewize will work closely with the Management Council and Ohio's ITCs to ensure every school district in Ohio is aware of the new opportunity to leverage Linewize's solutions for schools and school communities.

"Partnering with the Management Council has been a strategic initiative at Qoria for several years," said **Jordan Vandyke, vice president of sales, east**, at Linewize. "We are excited about the partnership and the opportunity for school districts in Ohio to take advantage of Linewize's student safety platform."

"We're excited to share this new partnership, leveraging our strengths to better support Ohio's learners, teachers, and leaders," noted **Geoffrey Andrews, chief executive officer of the Management Council**. "Together we are sustaining our commitment to protect Ohio's schools from cyber threats, creating a more secure future for education in our state."

Partner Agreement Details

Parties	Qoria and the Management Council
Key Terms	Qoria chosen as a preferred vendor encapsulating all K-12 products The agreement is for one year. Qoria's standard partner agreement terms apply.
